

# MOTUM

EXPERIENCE

## MOTUM EUROPEAN PROJECTS S.L. is a company belonging to FMTS Group, leader in the European Project Management sector.

For the last few years, we have been focusing our activities on the Erasmus+ Programme and its opportunities to promote the Mobility of Individuals. We have implemented a complex system that allows us to plan and manage all the activities related to transnational mobility projects, and to monitor, promote, evaluate and follow-up the learning process abroad, ensuring that each initiative reaches a high impact at local, European and international level. Furthermore, FMTS Group supports the European Commission in the implementation of Pilot initiatives related to Mobility of Apprentices and to the creation of a

VET Mobility Scheme for Africa. Erasmus+ is the EU's Programme that supports Education, Training, Youth and Sport in Europe for a 7-year period (2021-2027). The aim of Erasmus+ is to contribute to the European policies for growth, jobs, social equity and inclusion, as well as to integrate EU's strategic framework for Education and Training. Under the Erasmus+ Programme, the core of our activities is the development of Erasmus accreditation in the fields of vocational education and training, and school education; Strategic Partnership for School Exchanges.

Here at MOTUM, we specialize in connecting educational, not for profit and commercial organizations with EU funds for educational, vocational and training purposes with particular specialization of the Erasmus Plus Programme.

As for transnational mobility we are specialised in Outgoing and Incoming European Mobility Projects and all the related services. We send and host students, school staff, trainees and apprentices coming from all over Europe for internships from 2 weeks up to 6 months. Mobility projects are comprised of organizations and schools from diverse and thriving sectors, such as: tourism, hospitality, agribusiness, textile and clothing, marketing and communication, ICT, mechanics and robotics, automotive and aerospace, green economy and social innovation.

We arrange professional training courses for young people and adults looking to acquire new abilities and competencies to improve their integration in the labour market; our expert mentors will help you and guide you through the process. Our unique feature is the employment of a non-formal education system (NFE) which is characterized by intense cultural exchanges and creative activities with the main purpose of helping the participants to be successfully integrated in the country and city of destination.

## MAIN ACTIVITIES

MOTUM EUROPEAN PROJECTS S.L. has been working for many years in the learning/training sector; professional orientation; personal research and selection; internships; needs analysis; skills assessments as well as supply and demand matching. MOTUM is involved in both Outgoing and Incoming mobility projects in Spain.

For the Outgoing Mobility projects, we help organizations and schools to participate in fully funded exchange programmes for education and training purposes.

For the Incoming Mobility Projects from other European countries, MOTUM as the host organization, receives the trainees for the placement activities, strictly adhering to the principles laid down by the European Quality Charter for Mobility and supports public and private bodies in activities related to:

Project Identification

Project/Bid writing

End to end project management

Once the projects are approved, we support organisations and schools in matters regarding to:

Logistical planning

Intercultural activities for a more enjoyable experience in the hosting country

Accommodation

Tutoring and monitoring for the entire mobility period

Matching with host companies or schools, in line with the learning/training outcomes

Definition of individual training agreements

Definition of individual training agreements

Project closure and dissemination of the results or achievements

**Vialco S.L.**

**Taxival**

**Transfers Valencia**

Once in Valencia, you cannot miss the beauty of the city and its culture.

Discover Valencia's most important landmarks and get your camera at the ready!

We selected for you the best routes and attractions from seeing Valencia histórica, its monuments and plazas of casco antiguo, the famous Street Art of El Barrio Del Carmen, the Ciudad de Las Artes y Las Ciencias, to strolling by the river of Parque del río Turia.

We will make your experience unforgettable!

## Plazas Of Casco Antiguo

---

Valencians love to be outside and, as the workday ends, will explode from their offices and flow down the sidewalks like lava, before coming to rest in one of the city's many plazas. There are hundreds of plazas in Valencia, but here are some of the historic center's most well-known.

## El Barrio Del Carmen

---

Barrio del Carmen is one of the historic districts of Valencia's old town, with a millennial history behind it. Today barrio del Carmen is best known for its intense nightlife that makes it the favorite place for young people in Valencia. Filled with bars, tapas, restaurants, and various locales, it's animated day and night by a nonstop drive of tourists and college students looking for fun. By day the Barrio is the place of alternative shopping, although there are many big brands that have found space in the neighborhood. This is the last transformation of this neighborhood that over the centuries has been a refuge for Arabs, barracks, a place of prostitution, a neighborhood of the Arab aristocracy in the Middle Ages, working-class district in 1900 until the current transformation into a place of fun in Valencia.

## Ciudad de Las Artes y Las Ciencias

---

Ciudad de las Artes y las Ciencias is located on the old Turia river, just minutes from the old town. It is the only attraction of its kind to be located in an urban core, a recreational space where culture is art. An important stimulus for Valencia's urban tourism, which ranks among the cities with one of the most modern cultural infrastructures. A centre that brings us closer to a future that is already present. The City of Arts and Science bases its activity on three main areas: art, science and nature, three pillars of human knowledge at the service of all citizens.

## Parque del río Turia

---

The Turia Natural Park shows a vigorous and varied landscape with a remarkable diversity of habitats and species of fauna and flora. The area is home to important elements of historical and geological heritage, as well as ancient Bronze Age sites.

The Turia-Guadalaviar River and its riverbank, of great ecological interest, the Mediterranean forests of pine and scrub and the Valencian orchard of medieval origin are representative environments of this natural area.

We will be your second home as soon as you arrive in the city, to work, to learn and to enjoy your time here! During the whole period of your mobility abroad, we will support you and provide you with all the services you need for accommodation, language and structured courses, internship research and tutoring and monitoring. You can count on your tutors who will be ready to help you in any occasion from the very beginning, by welcoming you at the airport, introducing you to your hosting company or school and taking you to explore the city. Our team of dedicated and passionate experts will select the most competitive companies and most suitable educational offer for you. We are strongly committed to provide high quality standard and flexible solutions satisfying your needs by exceeding all of your expectations to make you feel at home! Hurry up we are already waiting for you in Valencia!
