

ESOL, Maths, English & Communication Skills

ESOL for Construction

Campus: Rotherham College

Code: R28AC02

Type: Part Time

An ESOL (English for Speakers of Other Languages) course is designed to help non-native English speakers improve their language skills for everyday life, employment, and further study.

These courses focus on practical communication and help learners build the confidence needed to navigate life in an English-speaking environment.

About This Course

This course prepares learners to secure and maintain work in the UK construction industry by equipping them with essential site safety knowledge, CSCS test preparation, tool recognition, and practical workplace English.

Through targeted instruction in site induction tasks and key workplace behaviours—such as reporting hazards and asking for safety clarification—learners build the floor-ready confidence needed to navigate sites safely.

Additionally, the curriculum supports long-term success by providing guidance on UK employment rights, financial literacy like CIS and payslips, and direct progression into agency recruitment, entry-level labouring, or accredited trade training.

Tuition Fees

Those aged 19 or over may not need to pay fees depending on their circumstances. Find out if you qualify for help with your fees [<https://www.rotherham.ac.uk/course-fees/>] .

If you need further advice or guidance please contact the Enquiries Team on **01709 362111**.

Additional Information

This course will be available at various venues across the borough.

PLEASE NOTE

We make every effort to ensure information within our online course directory is accurate and a true representation of the courses we are offering in 2027-28. However, we do reserve the right to make changes if necessary.
